Our Ref: LM/KM

20th September 2022

Dear Parent/Carer,

As part of our learning about space in Year 5, a specialist will be visiting school on **Friday 4th November** to deliver workshops to all year 5 pupils.

The sessions will take place inside the school hall in a mobile planetarium which will project a realistic image of the night sky, providing an immersive experience where children will learn about stars, planets and satellites.

This experience will support the children's learning across our science, history and geography for this term by providing a concrete learning experience.

Pupils will come into school in school uniform: there will be no changes to the timing of the usual school day or school dinners.

The cost of this specialist workshop will be £4.00 per pupil, this will be available to be paid on Arbor. Under the requirements of the Education Reform Act 1988, we can only raise the cost of this activity by voluntary contributions. There is no obligation to contribute and children will not be treated differently according to whether or not any contribution has been made. However, if insufficient funds are raised, unfortunately the workshop will be unable to take place.

If you have any questions, please do not hesitate to contact one of the Year 5 team: I know it will be an enjoyable and valuable experience for all involved.

Yours faithfully

Mrs Mulliner
Year 5 Cohort leader
